Coral disease is quickly becoming a crisis to the health and management of the world's coral reefs. There is a great interest from many in preserving coral reefs. Unfortunately, the field of epizootiology is disorganized and lacks a standard vocabulary, methods, and diagnostic techniques, and tropical marine scientists are poorly trained in ...

## **Coral researchers find link between bacterial genus and ...**

coral disease is a natural process caused by both biotic and abiotic stressors but certain factors can exacerbate disease and cause outbreaks biotic stressors are those caused by a living organism eg pathogen parasite and abiotic stressors are environmental stressors eg changes in salinity temperature light.

## **Coral Disease - Marine Savers**

Pathogens are largely responsible for coral diseases such as Black Aggressive Band, Black Band Disease, Bacterial Infection, Black Overgrowing Cyanophyta, Fungal Infection, and Lethal Orange Disease. Identification of these pathogens is impossible due to the uncertainty of trying to determine the type of pathogen attacking the coral.

Coral disease is considered one of the major causes of coral mortality and disease outbreaks are expected to increase in frequency and severity due to climate change and other man-made stressors.

### **Coral Diseases: Corals Tutorial - National Ocean Service**

We now know that five coral diseases are positively correlated with high water temperature – these are bacterial bleaching, black band disease, plague, aspergillosis and dark spots disease. Nutrient (sewage) input, sedimentation, and runoff have all been cited as correlated with disease incidence, however in almost all of these reports no data are provided.

### **Diseases Of Coral**

Black-band disease, discolored spots, red-band disease, and yellow-blotch/band disease appear as discolored bands, spots or lesions on the surface of the coral. Over time, these progress across or expand over the coral's surface consuming the living tissue and leaving the stark white coral skeleton in their wake.
