Forensic pharmacology (Book, 2007) [WorldCat.org]

Simply put, forensic pharmacists are pharmacists who specialize in legal cases. They combine the science of pharmaceutical drug research with criminal justice and legal practice. They may be called upon to testify about the side effects of a drug, or they may perform research to determine the effect that a drug had in a person's death.

Forensic Pharmacology Inside Forensic Science

Both forensic toxicology and pharmacology involve the study of the effects of drugs on biological systems, where drugs refer to any man-made or natural substance that has either a biochemical or psychological effect on the recipient. There are, however, significant differences between these two branches of medical science.
