### **Math Expressions Grade 3 Unit 1 Vocabulary Flashcards ...**

The same representation that students used in Grade 3 to see a fraction as a point on the number line now allows them to see a fraction as a sum of unit fractions: just as  $5 = 1 + 1 + 1 + 1 + 1$ , so  $5/3 = 1/3 + 1/3 + 1/3 + 1/3 + 1/3$  because  $5/3$  is the total length of 5 copies of  $1/3$ . Armed with this insight, students decompose and compose fractions with the same denominator.
