Timing belt (camshaft) - Wikipedia

The owner's manual maintenance schedule is the source of timing belt replacement intervals, typically every 30,000 to 50,000 miles (50,000 to 80,000 km). It is common to replace the timing belt tensioner at the same time as the belt is replaced. On some engines where the coolant pump is run by the timing belt, the coolant pump is also typically replaced.

P.O. Box 5887 Denver, CO 80217-5887 Interference Engines ...

When replacing the timing belt, it's important that the tensioner, idler pulleys, and water pump are inspected as the timing components wear at a similar rate. These few timing components are inexpensive when compared to labor costs. Manufacturers recommend replacing the timing components when replacing the timing belt.
