## Patient safety & perspectives on evidence, information ...

Annual Perspective 2015. Computerized provider order entry, or CPOE, is a cornerstone of patient safety efforts, and the increasingly widespread implementation of electronic health records has made it a standard practice in health care. In 2015, the literature on CPOE and safety evolved; current research reflects not only the experience of early adopters but also that of multiple health care settings and organizations.

## Patient Safety: Perspectives on Evidence, Information and ...

Making Health Care Safer II: An Updated Critical Analysis of the Evidence for Patient Safety Practices presents the latest evidence on 41 proven patient safety strategies, 10 of which are supported by enough evidence that an expert panel says they should be adopted by health systems to reduce patient harm. The report updates Evidence-based Practice Center Report (#43), the first systematic assessment of patient safety practices.
