period.

Period Questions And Answers

Payback Period = $\frac{\text{Original Investment}}{\text{Annual Cash Inflows}}$. The calculation of the payback period depends on the uniformity of annual cash flows. When annual cash flows are not equal (i.e., different each year), there are two steps in calculating the payback period.

Payback Period Questions And Answers

Under payback method, an investment project is accepted or rejected on the basis of payback period. Payback period means the period of time that a project requires to recover the money invested in it. It is mostly expressed in years. Unlike net present value and internal rate of return method, payback method does not take into account the time value of money.
