observed social and economic networks appears in Chapter 3. 2.1 Representing Networks As networks of relationships come in many shapes and sizes, there is no single way of representing networks that encompasses all applications. Nevertheless, there are some representations that serve as a useful basis for capturing many applications.

Matthew O. Jackson: Social and Economic Networks

Although the explosion in networks studies in economics has largely taken place in the last decade, there were, of course, much earlier studies where social networks were central in economic studies.³ Some of the earliest studies involved the documentation of the importance of social networks as means of obtaining jobs by Myers and Shultz (1951) and Rees and Shultz (1971), which served as important precursors to Granovetter™s (1973, 1974) seminal work.
