fuses or switches. With our guidance and step-by-step videos repairing your dryer is an easy do-it-yourself project.

How to Fix a Dryer (Our Step by Step Guide)

The dryer drum is turned by a motor, which also operates the dryer's blower. Does your dryer make a rattling noise? That could be a pulley in the motor that's come loose. If a bushing or bearing in the motor is damaged, you may hear a high-pitched whine. And a hum can come from one of the switches or windings on the motor if it is broken.
