The Classical Language Of Architecture

The Classical Language of Architecture is an edited and illustrated set of transcripts of 6 lectures given by Summerson on BBC Radio during the 1960s. At that time, shortly after WWII and with the rise of Brutalist, concrete architecture across the country, those who preferred a traditional, classical architectural expression were embattled by their Modernist

periods.

The classical language of architecture: John Summerson ...

“The Classical Language of Architecture” by John Summerson was first published in 1966. In this book, the author dwells upon the detailed grammatical workings of architectural language. The reason why classical architecture was chosen as a basis for the detailed analysis is very simple: it is that kind of “language” the grammatical rules of which ...

Classical architecture - Wikipedia

Classical architecture is a visual "language" and like any other language has its own grammatical rules. Classical buildings as widely spaced in time as a Roman temple, an Italian Renaissance palace and a Regency house all show an awareness of these rules even if they vary them, break them or poetically contradict them.

Classical buildings as widely spaced in time as a Roman temple, an Italian Renaissance palace and a Regency house all show an awareness of these rules even if they vary them, break them or poetically contradict them.

The Classical Language of Architecture by John Summerson

Sir John Summerson's account of classical architecture has every right to be called a classic itself. With the help of diagrams, glossary and a wealth of photographs, the reader is taken easily from the great originals of Greece and Rome through the recapitulations and innovations of the Renaissance, the rhetoric of the Baroque and grave statements of Neo-classicism to the 'stripped Neo-classicism' of the
