You could purchase lead the dynamics of aggression biological and social processes in dyads and groups or acquire it as soon as feasible.

The dynamics of aggression : biological and social ...

Polyubiquitin chains are flexible multidomain proteins, whose conformational dynamics enable them to regulate multiple biological pathways. Their dynamic is determined by the linkage between ubiquitins and by the number of ubiquitin units. Characterizing polyubiquitin behavior as a function of their length is hampered because of increasing system size and conformational variability.
