Select the Run Simulation button to conduct a simulated 2020 presidential election. You can choose to have the map populate randomly or more east to west, based on actual poll closing times.. The simulator is largely based on a data-driven presidential model created by JHK forecasts. However, it also takes into consideration the election forecast of one or more long-time qualitative forecasters.

The Monty Hall problem is a brain teaser, in the form of a probability puzzle, loosely based on the American television game show Let's Make a Deal and named after its original host, Monty Hall. The problem was originally posed (and solved) in a letter by Steve Selvin to the American Statistician in 1975. It became famous as a question from a reader's letter quoted in Marilyn vos Savant's "Ask ...
