Why Mathematics Is a Language - ThoughtCo

Mathematics is called the language of science. Italian astronomer and physicist Galileo Galilei is attributed with the quote, "Mathematics is the language in which God has written the universe." Most likely this quote is a summary of his statement in *Opere Il Saggiatore*: [The universe] cannot be read until we have learnt the language and become familiar with the characters in which it is written.

demonstrate why math matters. In a nutshell, these reasons can be summed up by three words: Personal, Practical, and Patriotic. Personal Reasons to Learn Math: A person's success in life depends on how well she can solve problems.

13 Reasons Why Math is Important - Life Hacks

Wilson is a noted author so he clearly has high verbal ability. However, what he revealed in the passage above is that he also has high spatial ability.

Therefore, it is probably reasonable to conclude that he has higher verbal and spatial ability, and a relatively lower level of math ability. Hence he concludes that math ability is not necessary for success in science, because he personally did not feel that he relied on it for success.

Why Math? | Edutopia

Students must also develop an understanding of concepts; they must understand what proportionality means. And yet while math is an object of inquiry, it's also an object for inquiry. Galileo spent many hours studying and refining his telescopes, yet his primary motivation was not the device itself but what he could do with it: gaze at the cosmos.

Preparing students to understand math and science gives them tools to understand, analyze and impact the communities where they live. Elementary Teachers Play a Key Role

Should math and science be compulsory? | Debate.org

Mathematics is certainly a science in the broad sense of "systematic and formulated knowledge", but most people use "science" to refer only to the natural sciences. Since mathematics provides the language in which the natural sciences aspire to describe and analyse the universe, there is a natural link between mathematics and the natural sciences.
