Following the win32/64 step-by-step guide, I am able to compile successfully. but I am unable to package the program into an installer. The build commands

complete with no errors, but I can't find the user-guide.chm file in the build tree, and when I try to package, nsis fails because it can't see the file. I've tried forcing a build of the user-guide\_chm project, and it executes what looks ...
