Qiu shows us how the working class are creating a  
separate network for themselves so they can continue  
to gain information, connect with others, find jobs and  
housing and participate in second tier society of their  
own creation.

Working-Class Network Society: Communication Technology and the Information Have-Less in Urban China. The idea of the "digital divide," the great social division between information haves and have-nots, has dominated policy debates and scholarly analysis since the 1990s. In Working-Class Network Society, Jack Linchuan Qiu describes a more complex social and technological reality in a newly mobile, urbanizing China.
